RE: Ser No.: 09/924,383

Examiner William Beisner

Attached are printouts I mentioned in a voice message today from a computer CAD data base file Mcad1200/projects/ramses/broth_cup/images (page A) as well as "thumbnail" printouts of the broth cup (see pages C-D-E) as it was finally developed Aug 17, 2000. Page B shows 8 examples of development from a common coffee creamer cup to the finished broth cup which is Cup_a.jpg, Cup_b.jpg, Cup_c.jpg, Cup_d.jpg on page E.

This shows reduction to practice of the claimed invention before the date of the US 2002/0155590 Gebrian et al. reference which was filed April 24, 2001.

Please call me to discuss this evidence as overcoming the 35 USC 102(e) rejection.

Respectfully,

Leland K. Jordan
